1. NATURE OF OPERATIONS AND GOING CONCERN

MG Capital Corporation ("MG" or the "Company") is a publicly traded mineral exploration company and was pursuing opportunities relating to the acquisition and exploration of mineral property interests in British Columbia, Canada. The Company was incorporated on November 9, 2017 under the laws of Alberta. The registered office and records office of the Company is located at 10th Floor, 595 Howe St., Vancouver, V6C 2T5, British Columbia, Canada. The Company's Head Office is located at #201 – 135 – 10th Ave. S., Cranbrook, V1C 2N1, British Columbia, Canada.

On November 14, 2019, the Company completed a reverse asset transaction pursuant to an amalgamation agreement with DLP Resources Inc. ("DLP"), a private mineral exploration company. Subsequently, DLP became the wholly owned subsidiary of MG. MG was trading on TSX Venture Exchange under the symbol of DLP.V as of November 24, 2019. For accounting purposes, the amalgamation is accounted for as a reverse asset acquisition as the shareholders of DLP acquired control of the consolidated entity. DLP is considered the acquiring and continuing entity and MG was the acquired entity.

On January 6, 2021, MG Capital changed its name to "DLP Resources (2020) Limited". On January 25, 2021, DLP Resources (2020) Limited and its wholly owned subsidiary DLP Resources Inc. completed a vertical amalgamation and subsequently changed the amalgamated entity's name to "DLP Resources Inc." The amalgamation streamlined the Company's mining exploration activities under a single corporate entity and reduce corporate and operational expenses.

These condensed interim consolidated financial statements comprise the financial statements of DLP Resources Inc. and its wholly owned subsidiary, DLP Resources Peru S.A.C., incorporated in Peru.

These condensed interim consolidated financial statements have been prepared in accordance with IFRS applicable to a going concern. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At January 31, 2022, the Company had no source of operating revenues, had not yet achieved profitable operations and the Company expects to incur further losses in the development of its business, all of which indicate the existence of a material uncertainty that casts significant doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to obtain the financing necessary to complete its exploration projects by issuance of share capital or through joint ventures, and/or proceeds from the disposition of a property. As at January 31, 2022, the Company has an accumulated deficit of \$5,091,248 and has working capital of \$1,699,356. The Company's current forecast indicates that it is expected to have sufficient cash available for the next year to continue as a going concern.

The Company could also be significantly adversely affected by the effects of a widespread global outbreak of a contagious disease, including the recent outbreak of respiratory illness caused by COVID-19. The Company cannot accurately predict the impact COVID-19 will have on it and the ability of others to meet their obligations with the Company, including uncertainties relating to the ultimate geographic spread of the virus, the severity of the disease, the duration of the outbreak, and the length of travel and quarantine restrictions imposed by governments of affected countries. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could further affect the Company and its ability to secure any necessary financing.

2. BASIS OF PRESENTATION

a) Statement of Compliance

These unaudited condensed interim consolidated financial statements for the three and nine months ended January 31, 2022 and 2021 (the “Interim Financial Statements”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Auditing Standard (“IAS”) 34, Interim Financial Reporting (“IAS 34”). These Interim Financial Statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company’s audited financial statements for the year ended April 30, 2021, which have been prepared in accordance with IFRS issued by the International Accounting Standards Board (“IASB”).

These Interim Financial Statements have been prepared using accounting policies consistent with those used in the Company’s audited financial statements for the year ended April 30, 2021.

These Interim Financial Statements were approved for issue by the board of directors on March 28, 2022.

b) Basis of measurement

The Interim Financial Statements have been prepared on a historical cost basis.

These Interim Financial Statements are presented in Canadian dollars, which is also the Company’s and its wholly owned subsidiary’s functional currency. At the transaction date, each asset, liability, revenue and expense denominated in a foreign currency is translated into Canadian dollars using the exchange rate in effect at that date. At the fiscal period end date, unsettled monetary assets and liabilities are translated into Canadian dollars using the exchange rate in effect at the period end date and the related translation differences are recognized in net income.

The accounting policies have been applied consistently in these Interim Financial Statements, unless otherwise indicated.

c) Basis of consolidation

These Interim Financial Statements include the accounts of the Company and its wholly-owned and controlled subsidiary as described in Note 1. Control exists when the Company has the power directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of the subsidiary are included in the Interim Financial Statements from the date that control commences until the date that control ceases. Prior to the amalgamation on January 25, 2021, the consolidated financial statements included the accounts of DLP Resources Inc. and MG Capital Corp. Legally, MG Capital Corp. owned DLP Resources Inc., however, for accounting and presentation purposes, DLP Resources Inc. was the parent entity. All intercompany transactions and balances have been eliminated upon consolidation.

d) Judgments and estimates

The preparation of financial statements in compliance with IFRS requires management to exercise judgment in applying the Company’s accounting policies and make certain critical accounting estimates. The areas involving critical judgments in applying accounting policies have the biggest impact on the assets and liabilities recognized in the financial statements)

Economic recoverability and probability of future economic benefits of mineral properties

Management has determined that acquisition costs, which are capitalized as mineral properties (Note 3), have future economic benefits and are economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefit that may include geologic and metallurgic information, history of conversion of mineral deposits to proven and probable reserves, scoping and feasibility studies, accessible facilities, existing permits and life of mine plans.

Determination of fair value on contributed mineral property assets by related parties

Assets contributed to the Company by related parties are to be recorded at an exchange fair value comparable to an arms-length transaction. As there is no market value for mineral property assets contributed, judgement was used in determining the fair value measurement of the contributed mineral property assets. The Company determined the fair value of the mineral property assets is consistent with the fair value of Common Shares issued to the related parties in accordance with IFRS 2.

Going concern evaluation.

As discussed in Note 1, these Interim Financial Statements have been prepared under the assumptions applicable to a going concern. If the going concern assumption were not appropriate for these Interim Financial Statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported expenses and the consolidated statement of financial position classifications used and such adjustments could be material.

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operating expenditures and meet its liabilities for the ensuing year involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Aldridge 1 (RJ) and Aldridge 2 (JR) Properties

The Aldridge 1 (RJ) and Aldridge 2 (JR) mineral properties are separate claim blocks located near Cranbrook B.C. in the East Kootenay region of the province. The Aldridge 1 property is 47 claims totaling 15,360.36 hectares; the Aldridge 2 property is 6 claims totaling 1,939.5 hectares.

On March 1, 2020, the Company entered into a property earn-in agreement (the "Earn-In Agreement") with each of Jonathan Sean Kennedy, R.D. Craig Kennedy, Darlene E. Lavoie, Thomas Peter James Kennedy, Michael Cameron Kennedy and Frederick A. Cook (for Salt Spring Imaging, Ltd.) (together, the "Field Experts"). Under the Earn-In Agreement, the Field Experts have agreed to grant to the Company an option to acquire up to a 100% interest in certain mineral claims: four (4) Son of Captain claims totaling 126.75 ha and the Liger claim totaling 84.31 ha.

DLP RESOURCES INC.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2022 and 2021

(Expressed in Canadian Dollars)

(Unaudited)

In order to exercise the option to acquire a 100% interest in the properties (Aldridge 1, Aldridge 2, and Hungry Creek), the Company will issue an aggregate of 450,000 common shares of the Company (the "Earn-In Shares") through the issuance of 112,500 Earn-In Shares per year, over a four-year period, issuable to the Field Experts on a pro-rata basis.

Upon completion of the Earn-In Agreement, the Field Experts shall be entitled to a 1% Net Smelter Royalty ("NSR") payable on each of the Properties, with the Company being able to buy back such NSR royalties in exchange for an aggregate of \$1,000,000, payable to the Field Experts on a pro-rata basis at the Company's discretion.

For the three and nine months ended January 31, 2022, the Company spent \$1,578 and \$51,905 (2021 - \$52,464 and \$661,234), respectively, on both Aldridge properties.

Redburn Creek Property

The Redburn Creek claims are 12 claim blocks totaling 5,359.5 hectares near Golden, B.C.

The property is owned 100% by the Company and has no ongoing commitments.

For the three and nine months ended January 31, 2022, the Company spent \$nil and \$11,988 (2021 - \$3,435 and \$35,099), respectively, on the Redburn Creek property.

Hungry Creek Property

The Hungry Creek Property, totalling 38,852.92 hectares, is comprised of 74 claims (72 claims 100% owned by the Company and 1 claim optioned from the Kennedy Group) and is located west of Kimberley, B.C.

On March 1, 2020, the Company entered into the Earn-In Agreement which added one additional Hungry Miner claim, totaling 62.67 ha, to the property. This year's commitment with regard to the Earn-In Agreement was fulfilled on March 1, 2021.

For the three and nine months ended January 31, 2022, the Company spent \$18,198 and \$300,103 (2021 - \$9,137 and \$63,374), respectively, on the Hungry Creek property.

DD Property

On July 13, 2020, the Company entered into an option agreement to acquire up to a 75% interest in certain mineral claims known as the DD Property, located in BC.

In order to exercise the option agreement, and earn an aggregate 75% interest in the property, the Company is required to complete the following terms:

- The Company can earn a 50% undivided interest in the DD Property by incurring \$4 million in exploration expenditures and making a total of \$250,000 cash payments to the optionor over 48 months from the effective date of the option agreement.
- The Company will have the right to earn an additional undivided 25% interest (bringing their total interest to 75%) by delivering a bankable commercial feasibility study on the DD Property within 96 months of the effective date of the option agreement.

Upon the Company's exercise of the option agreement and acquisition of a 50% or 75% interest in the DD Property, the parties will enter into a joint venture agreement for the further development of the property.

10. FINANCIAL INSTRUMENT AND RISK MANAGEMENT

Risk Management

The Company's overall risk management program seeks to minimize potential adverse effects on the Company's financial performance.

Fair value

The Company's consolidated financial instruments include cash and trade and other payables. *IFRS 7 Financial Instruments: Disclosures* ("IFRS 7") establishes a fair value hierarchy for financial instruments measured at fair value that reflects the significance of inputs in making fair value measurements as follows:

- Level 1 - applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- Level 2 - applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- Level 3 - applies to assets or liabilities for which there are unobservable market data.

DLP RESOURCES INC.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2022 and 2021

(Expressed in Canadian Dollars)

(Unaudited)

The recorded amounts of cash and trade and other payables approximate their respective fair values due to their short-term nature.

Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash in a major Canadian bank. The carrying amount of financial assets represents the maximum credit exposure.

Interest rate risk

Interest rate risk is the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's operating cash flows are substantially independent of changes in market interest rates. The Company has not used any financial instrument to hedge potential fluctuations in interest rates. The Company does not have any exposure to interest rates.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases.

The Company monitors its risk of shortage of funds by monitoring the maturity dates of existing other liabilities. Most of the Company's financial liabilities are due within one year.

11. CAPITAL MANAGEMENT

The Company monitors its cash and common shares as capital. The Company's objectives when maintaining capital are to maintain sufficient capital base in order to meet its short-term obligations. The Company is not exposed to any externally imposed capital requirements.

12. SUBSEQUENT EVENTS

On February 28, 2022, the Company issued 75,000 common shares to 453999 BC Ltd. in connection with the property agreement for the NZOU Property (Note 3).

On March 1, 2022, the Company issued 112,500 Earn-in Shares in connection with the Earn-in Agreement on the Aldridge 1, Aldridge 2 and Hungry Creek Properties (Note 3).

On March 4, 2022, the Company received approval from the TSX Venture Exchange for a one-year extension to the term of 4,333,967 common share purchase warrants (the "Warrants") issued as part of the Company's private placement that closed on June 23, 2021. The Warrants are exercisable at a price of \$0.40 and with an expiry date of June 23, 2023.
